THE STOCK MARKET WEAK

Professional Traders Quick to Expose the Short Side.

Rapid Declines in the Junior Vanderbilts-Brenks in Many Quarters, the Prevailing Tendency Being One of Pressure-Money Firmer.

NEW YORK, Sept. 20,-Today's stock market opened weak, and with the excep-tion of a few transient and apparently wholly technical reactions, it retained that tendency during the greater part of the business session. At the same time, it did not appear that actual liquidation was in very large volume, and most of the seiling for long account appeared to be induced through the publication over Sunday of a number of particularly gloomy views regarding the financial sit-untion at large, and, more directly, the copper trade.

These articles, in fact, were generally referred to on the floor of the stock exchange as being the most effective influchange as being the most character mass-caces in such scattering liquidation as was noted. While not in large volume, there was enough of this liquidation and sufficiently heavy selling for foreign ac-count to induce the professional element count to induce the professional definition of the strict to esponse the short side, and they sold stocks aggressively throughout the day.

It was noted that slight rallies followed each suspension of pronounced activity, a sufficient evidence that genuine liqui-

pressure upon all the Copper stocks in London, the heavy selling of these issues by Paris being the main feature of the dealings. It must have been, however, wholly in sympathy with their own misfortume in South Africa that British speculators ascribed the weakness in American stocks to the comparatively in-

It seems now evident that the public is to be treated to a war of words over the situation in the couper trade, and it is equally evident that, aside from such inferences as may be drawn from the course of the price of the meral fired; the public understanding of the controversy is not apt to be very complete. Walk Sired seems indisposed to take the alightest account of the fact that so lately as June last Amalgamated Cooper sold as high as 130, or over 40 points above its price of today, and that in the same mouth the stock of the concern was increased nearly 100 per cent for the purpose of acquiring the Butte and Boston and Boston and Montaina Copper Companies. Just why the management of the Amalgamated Copper should have elected a period of decitining trade conditions as a good reason for increasing their own output or that of the companies under their control is a question which has not yet been fully explained. The acquisition of the two companies named was at the time described as a most advantageous move, and indeed was one of the superficial reasons advanced in connection with the rise in Amalgamated Copper to the figure named.

The severest declines in the railway list took place in the so-called funior Vanderial took place in the so-called funior Vanderial took place in the so-called funior Vanderial reasons advanced in connection with the rise in Amalgamated the consecutive and the promise of plentiful money interficial reasons advanced in connection with the rise in Amalgamated the consecutive and the promise of plentiful money interficial reasons advanced in connection with the securities, and the publication of the vanderbilit properties was meditated, accounted sufficiently for the reactionary movements in these sections. Lake Fig.

the was really the cause of the break.

The Vanderbill securities generally went off during the early part of the day the Nickel Plate and New York Central being conspicuous. The alleged reason for the weakness of the stocks was the doubt cast on the story that the Junior Vanderbill securities are to be bought in and replaced by New York Central or Lake Shore 3½ per cent bonds. Careful enquiry suggested, however, that the selling was for the most part for shorts so that it should not be considered necessarily important or a bear factor. It is a fact that there has been no official acknowledgment that the consolidation plan is to be carried out, but this was quite as true a week ago. As a matter of fact some such plan is under concemplation and is sure of being floated in the not very far distant future, though it may have to wait for a good market. The talk of an increase in the New York Central dividend is not considered in conservative quarters.

The United States Steel Company di The United States Steel Company directors will meet today to declare dividends on the preferred and common stocks. It is stated unofficially that the rate will not be changed on either issue. The Steel stocks went off somewhat with the general list yesterday morning, but the decline was unimportant. There is much rosy gossip regarding the outlook for the company and for its securities, and it is entirely possible that in the next general market advance they will be conspictious. The suggestion is made, and it is an excellent one, that if the company has been able to carn dividenda on its stocks and a large surplus during the recent great strike it has little to fear

Puffs under the eyes; red nose; pimple-lotched, greasy face don't mean hard drinking always as much as it shows that there is BILE IN THE BLOOD. The drinking and over-eating overloads the drinking and over-eating overloads the stomach, but failure to assist nature in regularly disposing of the partially digested lumps of food that are dumped into the bowels and allowed to rot there, is what causes all the trouble. Cascarets will help nature help you, and will keep the system from filling with poisons, and clean out the sores that tell of the system's rottenness. Bloated help you, and will keep the system from filling with poisons, and clean out the sores that tell of the system's rottenness. Bloated by bile the figure becomes unshapely, the breath foul, eyes and skin yellow; in fact the whole body kind of fills up with filth. Every time you neglect to help nature you lay the foundation for just such troubles. Cascarets will carry the poisons out of the system without gripe or pain. Start to-night—one tablet—keep it up for a week and help the liver clean up the bowels, and you will feel right, your blood will be rich, face look clean, eyes bright. Get a 50c box of Cascarets, take as directed. If you are not satisfied you get your money back. Be sure and get what you ask for—Cascarets. Sample and booklet free.
